- Spoons
- Bowls or cups
- Pictures of berries growing

Activities
Discussion
Begin by asking the children to name different types of berries. Show real examples of berries (blue, black and raspberry). Show pictures of the berries growing. Explain that farmers grow the berries in fields but they also grow wild in meadows and forests! Ask the children if they think all of the berries taste the same. What do they guess each type of berry tastes like?

Make the Parfait

Set up: place a bowl of berries, a plastic spoon, a small cup of granola, a bowl of yogurt, and a plastic cup at each child’s place at a table. We suggest doing this set up ahead of time.

Demonstrate to the children how to make a parfait. Prompt the children to use a plastic spoon to put a layer of yogurt in a plastic cup. Follow with a layer of berries and then granola. Repeat until the ingredients are used. Ask the children to wait to taste their parfaits until the entire class has finished the assembly. When everyone has a completed parfait, count to three and have the children taste the parfait all together at once. When the children have finished their snack, prompt them to help clean up by putting their paper products in the trash and/or wipe the table.
Class Follow Up
Send home a recipe for berry parfaits with each child.
